EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Henry T. Brendzel on October 14, 2004.

The application has been amended as follows:

In the claims:

- a. Claims 1-28;
 - i. Line 1, replace "1-28. (withdrawn)." with "1-28. (canceled)."

Allowable Subject Matter

Claims 29-35 and 37 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 29-35 and 37 are drawn to a method for coding a data stream. The closest prior art, Barbir U.S. Patent No. 6,122,379, teaches a similar method. However, Barbir neither shows nor implies codewords provided by a process A or process B (defined in independent claim 29) having a length that is equal to codewords that would have been created by employing the standard first code book in a transmitting step. See Specification, page

8, lines 9-17. This feature recited in independent claim 29 renders claims 29-35 and 37 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
